

Your future at your fingertips: cooperative, international, global Product Owner (m/f/x)

MIC is leading worldwide in the automation of global customs and trade compliance processes. With our software solutions, we ensure safe and efficient customs clearance within the legal frameworks for more than 700 customers - like VW, Zalando, IKEA, Panasonic - on 6 continents.

You love being responsible for a specific product and taking over an important position in MIC's product management? - Here is your career option!

Your job

- 🌐 As a Product Owner you drive the market-driven further development of one of our SW modules and you are technically responsible for the dev team
- 🌐 Together with the stakeholders (internal + external) you define the requirements, develop ideas for new features to strengthen the USP and reduce recurring expenses
- 🌐 You create the product vision for your module (incl. product road map) and for the MIC modules together with the other POs
- 🌐 Together with the Scrum Master you manage the Product Backlog and prioritize developments
- 🌐 You ensure the product documentation and also consider non-functional requirements (security, performance, user experience)

Your skills and qualifications

- 🌐 Bachelor's or Master's Degree in IT or similar
- 🌐 +5 years of professional experience in software engineering or product management
- 🌐 Good understanding of Software Development and experience in working with agile teams
- 🌐 Excellent communication skills, ability to deal with conflicting requirements and priorities
- 🌐 Good leadership skills
- 🌐 Structured and pro-active working-style
- 🌐 Excellent English (written + spoken)

We offer you

- 🌐 Privately owned, stably growing company with HQ in Linz/Austria
- 🌐 World market leader with 11 offices on 3 continents
- 🌐 Cooperative, appreciative and respectful teamwork
- 🌐 International context with multinational customers
- 🌐 Professional on-boarding, MIC Academy training
- 🌐 Individual career paths
- 🌐 State-of-the-art work environment and approach: Scrum, Kanban, Pair-Programming, Coding Dojos, etc...
